

HOME HAZARD HUNT

Do you believe that your home is a safe place to be? Statistics show that most fires, accidents, and injuries occur in the home.

An important step in family preparedness is the identification of hazards in your home. Once the hazards are identified, it doesn't take much time or effort to make your home a safer place to live.

Getting Started: Using the checklist below, involve the whole family, especially your children, in a home hazard hunt. Remember that anything that can move, break, fall, or burn is a potential hazard. Foresight, imagination, and common sense are the only tools you will need! After identifying what needs to be done, devise a plan to do it.

Kitchen	Smoking and Matches
Yes/No	Yes/No
☐ ☐ Wear snug-fitting clothes when cooking	☐ ☐ Store matches and lighters out of reach of
☐ ☐ Do not leave cooking food unattended	children
☐ ☐ Keep pan handles turned in while cooking	☐ ☐ Use large, deep, non-tip ashtrays
☐ ☐ Keep a pan lid nearby in case of fire	□ □ Never smoke when drowsy or in bed
☐ ☐ Keep cooking areas clean and clear of	□ □ Dispose of ashes and cigarette butts in a
combustibles	metal can at least daily
☐ ☐ Keep appliance cords from dangling	☐ ☐ Check furniture for smoldering cigarettes
☐ ☐ Ensure outlets near the kitchen sink are GFCI	every night, especially after parties
(Ground Fault Circuit Interrupt)-equipped	Electricity
☐ ☐ Keep sharp knives out of reach of children	Yes/No
Outside	Avoid the use of extension cords (If used,
Yes/No	ensure the correct wattage rating)
☐ ☐ Clear dry vegetation and rubbish from around	☐ ☐ Plug only one heat-producing device into an
the house	electrical outlet
☐ ☐ Use barbecue grills away from buildings and	☐ ☐ Ensure cords are not placed under rugs
vegetation	☐ ☐ Verify circuits are not overloaded
☐ ☐ Dispose of barbecue briquettes in a metal	Replace damaged cords, plugs, sockets
container	☐ ☐ Use bulbs with the correct wattage for lamps
☐ ☐ Maintain a "greenbelt" around rural buildings	and fixtures
☐ ☐ Check with the fire department before	☐ ☐ Check fuses/circuit breakers for the correct
burning debris or using a burn barrel	amperage ratings
	☐ ☐ Do not override or bypass fuses or circuit
All Rooms	breakers
